

UFO Get-Together September 12, 2012

The Bird Museum—Sagle Idaho

11:00—Lemonade

12:00—Lunch

1:00—Get Together

You will want to come to this. Put it on your calendar now and have a wonderful experience. We have been there for the last 4 years and it has new and exciting innovations each time we come. Before you read any further you need to go to their website:

<http://www.birdaviationmuseum.com/index.html>

All the information about the airplanes, and inventions is beautifully explained and shown. We are all invited to be there - either to land at Sandpoint or at their private airstrip. I have landed there many times. Instructions are most complete. Driving instructions are easy.

I talked with Pam Bird last week and she and Forrest are looking forward to being at our meeting. He is a UFO and 91. The two of them will personally walk us through the museum for airplanes and inventions.

I was impressed last year when he explained his latest invention was the respirator for newborn babies. He is so thrilled to realize this one has saved the lives of over 90% of babies suffering from breathing problems at birth.

This is just 3 weeks away. I want to know that you are coming so I can make name tags for all of you. Tell me who is coming with you.. All are welcome. Please get back to me by email or phone.
